Giorgi Egetashvili

Front-end Developer

WORK EXPERIENCE

Jun 2025 — Dec 2025 startupcatalog.ge

Front-end Developer, Smart Academy • სმარტ აკადემია Freelance

- I worked as a front-end developer on the Smart Academy project, which created the website “Startup Catalog.” The goal of the project was to increase the awareness of Georgian startups, facilitate their connection with investors, and provide the public with access to information about Georgian startups.

Sep 2025 — Jul 2026 sakitkhavi.ge

Front-end Developer, Smart Academy • სმარტ აკადემია Freelance

- I worked as a front-end developer on the Smart Academy project, within the framework of which the website "Sakitkhavi" was created - a modern blogging platform that allows you to create, publish and manage your own articles, share knowledge and experience with a wide audience.
